

Prevention starts with all of us!

Your impact on ending violence in Washington

with **WSCADVSA**

Empowering student athletes to be leaders in school and beyond

With your support, we're using the power of sports to prevent violence. Through **Team Up Washington**, we train high school coaches across the state to use **Coaching Boys Into Men** and **Athletes as Leaders** prevention programs—so they can guide their athletes to lead with respect, speak up, and build a culture of healthy relationships.

Your support powers prevention statewide

Your support helps us **train domestic violence & sexual assault advocates** across Washington, **advocate for stronger protections** and options for survivors, and **lead innovative solutions**—like safe housing and financial support—so survivors can truly choose safety.

Prevention through story

Our educational tools **In Her Shoes®** and **In Their Shoes®** are being used in over 1,000 communities to spark powerful conversations about abuse, safety, and support. Through immersive, real-life scenarios, participants witness the barriers survivors face, and what it truly takes to help.
